

Pancrevo – Internships – Business Modules

At Pancrevo, we are happy to announce that we will have one internship position available for students participating in the EIT Innovative Precision Medicine initiative (<https://www.innovprecmed.eu>)

Main Location: Pancrevo is a young Italian company with multiple locations in Italy (Milano, Modena, Mantova) and locations of associated partner companies and collaborators in Lugano (Switzerland) and Salzburg (Austria). The envisaged internship project will involve visiting some of the locations but can be conducted mainly from remote.

Duration: 3-4 months.

Role: The intern will be charged with conducting a comprehensive business case study for a new start-up company to be spun out by Pancrevo and its mother company.

Tasks will include: analysis of the envisaged business model, creation of a business plan draft, concepts for company presentation, market potential analysis, investor documentation for VC funding, IP landscape mapping, competitive analysis, strategy roadmap, etc. The intern will be guided by experienced entrepreneurs and staff from our company.

Start-dates: between July and September (some flexibility)

The intern will receive a small monthly compensation.

The Company

Pancrevo is one of the company partners in the Innovative Precision Medicine initiative (<https://www.innovprecmed.eu>). Pancrevo srl is an Italian start-up company founded in 2024 and is dedicated to next-generation biologics and innovative drug delivery.

Pancrevo has several lines of research from digestive enzymes to next generation drug delivery systems for biologics. At Pancrevo we believe in the power of science and creativity to arrive at commercially successful solutions, which satisfy our clients and benefit final customers and patients around the world.

At Pancrevo, interns can experience first-hand, how a young company operates, improves, grows based on the input of individual people. A great place to gain experience while getting the chance to make a difference and shape your own environment!

The Candidate

Candidates for this position should have a solid background in business with a passion for entrepreneurship in the life-science, pharma and biotechnology space.

Specific training will be provided.

We operate in a multi-lingual environment (Italian, English, German) any language competency in addition to English is a plus.

Applications: Please send applications including a motivation letter and a CV or request for further info along with your contact details to info@pancrevo.com
